Mmm

Mmm

I just wanna know (oh)  
Can I make you my new bae  
Get it when you want to  
Do whatever you say  
Ain't gotta keep it on the low (oh)  
I'ma hold it down for you (say)  
Can I make you my?  
Can I make you my new bae  
I just wanna know (oh)  
Can I make you my new bae  
Get it when you want to  
Do whatever you say  
Ain't gotta keep it on the low (oh)  
I'ma hold it down for you (say)  
Can I make you my?  
Can I make you my new bae

Really I've been thinking 'bout you  
I don't really know what to do  
I'ma keep it real I'm in my feelings right now  
I was thinking 'bout calling you  
I don't wanna move to fast  
Maybe I should keep it cool  
Feeling butterflies inside right now  
When you gon' make your move?  
Scoop me, pull off in a spaceship  
I know it's last minute gotta think quick  
Kisses on your neck, with my lipstick  
Boy you know I gotta live an imprint  
Gotta lot of niggas tryna get with this  
But I ain't tryna give 'em that privilege  
You done started something let's finish this  
Put your tongue on my lips, don't play with this  
Now it's the time, go Wayne on it  
Might just let you put a ring on it  
Get your dick like a mic and sing on it  
Ride it, go crazy and stay on it  
Keep it real with me and stay honest  
I'ma do the same, put fame on it  
I might just let you put your name on it  
You know a lot of people gonna hate on it

Hate on it, hate on it, hate on it  
Lotta people gon' hate on it  
Hate on it, hate on it  
Ride on it, go crazy and stay on it  
Stay on it, stay on it, stay on it  
Put your tongue on my lips don't play with this

I just wanna know (oh)  
Can I make you my new bae  
Get it when you want to  
Do whatever you say  
Ain't gotta keep it on the low (oh)

I'ma hold it down for you (say)

Can I make you my?
