

# Know You

Dreamer Boy

After dark we closed the bar  
I lost my phone inside your car  
You don't know me, we met tonight  
But I was saying things you liked

Ooh, ooh  
I don't know you  
But I want to  
Ooh, ooh  
I don't know you  
But I want to

Hoping everything go right  
Hoping everything go right  
Hoping everything go right  
Hoping everything go right  
Hoping everything go right  
Hoping everything go right  
Hoping everything go right  
Hoping everything go right

I was keeping up with you  
It wasn't cool in summer school  
We ate our breakfast by the park  
You hate your mom and love the pool

Ooh, ooh  
I don't know you  
But I want to  
Ooh, ooh  
I don't know you  
But I want to

Hoping everything go right  
Hoping everything go right  
Hoping everything go right  
Hoping everything go right  
Hoping everything go right  
Hoping everything go right  
Hoping everything go right  
Hoping everything go right

Something real, something new, something that we found  
Something real, something new, something that we found  
Something real, something new, something that we found  
Something real, something new, something that we found
