

In a different life
I was feeling cool
I was in the clouds
Now I'm on my way down
I've been on my way down
In a different life
I was feeling cool
I was in the clouds
Now I'm on my way down
I've been on my way down

Everything is new when nothing feels the same
It's why I feel so strange when I look at my face
We were too far gone to find our way back home
But I was having fun so what's the harm in that
I just want to slow it down
Look at how we run around
I just want to feel you now
I just want to feel the ground

In a different life
I was feeling cool
I was in the clouds
Now I'm on my way down
I've been on my way down
In a different life
I was feeling cool
I was in the clouds
Now I'm on my way down
I've been on my way down

(Ahhhh)
