

Puppy Dog

Dreamer Boy

Ah, I just had it the right way
Okay, okay, okay
Alright, let's do it
Hahaha, okay
Yeah

Lightly drown, too many sounds
I've been way too out, don't wanna lose my time
I coast for days on end
Pick a fight with a basset hound
Chicken out when the gloves come off
Send 'em right back to the pound
I've been spaced out, not reading the signs
Yeah, I've been fucked up over you for quite, quite some time
I need a way out, I'm begging you please
'Cause something 'bout the way you are is making me weak

I've been waiting for you to see me like I see you
Staring at you with my puppy dog eyes, floppy ears
While I'm fakin' a smile, yeah
I've been waiting for you to see me like I see you
Staring at you with my puppy dog eyes, floppy ears
While I'm fakin' a smile

Yeah, you make my wheels turn
You make my heart ache (Ache)
I was just wondering
If we gon' feel the same
It's been like two summers (Ah)
Feel like I'm undercover (Oh)
Funny, 'cause your brand new man can't make you feel like I can (Ooh)

Feeling down (Feeling down)
Told myself I wouldn't fall this time around (Time around)
When I'm with you, girl, it's like I'm on a cloud (On a cloud)
Wasting time waiting for you, you (Oh!)
Feeling down (Feeling down)
Told myself I wouldn't fall this time around (Time around)
When I'm with you, girl, it's like I'm on a cloud (On a cloud)
Wasting time waiting for you, you

I've been waiting for you to see me like I see you
Staring at you with my puppy dog eyes, floppy ears
While I'm fakin' a smile, yeah (Yeah)
I've been waiting for you to see me like I see you
Staring at you with my puppy dog eyes, floppy ears
While I'm fakin' a smile (Ooh)

(Can't it feel good, oh good!)
