

Simple

Dreamer Boy

I still have some growing up to do
I still have my fun and so do you
But can we put that to the side
You come over for the night
I think we can get it on just fine

Love don't have to try so hard
We both know it could be so easy
Love don't have to try so hard
We both know it could be so simple
It could be so simple, darling

So simple, so simple darling
So simple, so simple darling
So simple, so simple darling
So simple, so simple darling

I still have some growing up to do (I know you do, I know you do)
I still have my doubts and so do you (I was thinking we could hold on to a feeling)
Can we put that to the side
You come over for the night
I think we can get it on just fine (We can get it on just fine)

Love don't have to try so hard
We both know it could be so easy
Love don't have to try so hard
We both know it could be so simple
It could be so simple, darling

So simple, so simple darling
So simple, so simple darling
So simple, so simple darling
So simple, so simple darling

Ooh, when the sun shines (When the sun shines)
Ooh, when the sun shines (When the sun shines)
Ooh, when the sun shines (When the sun shines)
Anything can happen, when the sun shines
Ooh, when the sun shines (When the sun shines)
Ooh, when the sun shines (When the sun shines)
Ooh, when the sun shines (When the sun shines)
Anything can happen, when the sun shines
