

Stargaze

Dreamer Boy

I've had my head down
This is what I saw when I looked up

White Linen tank top
Star gaze hotel room
Open the window
Let the light come through

(Never been one for the long term)

Got me patient
Right on time
(Stuck in a moment)
I been waiting
For your shine
Going Crazy
Going Blind
Take me baby
I'll take my time

I really hope this ain't the last night
(Always leaving, always chasing)

At the star gaze hotel
Where they know us too well
And they don't have a pool
We just lay in the bed
I just go up 12 floors
And your hair is still wet
And you take off your cool
I was never for you
This is something so real
But this is something brief
I just enjoy my stay
At the star gaze hotel

I get this feeling when I'm with you
(Never see it coming)
(This is what I saw when I looked up)

Beautiful body breathing by me
What a sight to see
Sunrise on windows grace the buildings
Write you a note before you leave

(I've had my head down, this is what I saw when I looked up)

I've been wasting precious time with you
I've been stargazing
Every moment is a flash in the sky
