

Tennessee

Dreamer Boy

Throwing stares, tryna catch your mood
Working doubles, tryna make a move
AC broken in the afternoon
Bed sheets fallin' like a feather
Feel the air, no one feelin' better
Gettin' hotter we dove in the water
Makin' out, we don't make sense
Yesterday, or today, when?
Ten thousand feeling cold out for
Warm skies, we don't sleep alone
Backbone, never breathin' on our own
Yellowstone, overgrown, telephone, watchin'
Open-ended, caught up in it, fallin'
Shallow water, washin'
Conscious, oh

I just wanna hold you
I don't wanna slow you down
Unless I wanna keep up
I'm the one you keep around
I just wanna hold you
I don't wanna slow you down
Unless I wanna keep up
I'm the one you keep around
I just wanna hold you now
It's so hard to keep up
I'm the one you keep around
