

Clever

Dreamhouse

I'm a violent color
You couldn't handle the pique
And it's getting brighter
But you're adjusting to me

Now play in half-time
I need my resting heart rate
But you're a California earthquake

When did you get so clever?
You can talk circles around me
You're so clever
Oh you used to have me,
Now your tongue's got your cheek
And I'm wrapped up
But I kinda like it
Yeah, I kinda like it

I'm a calming color
You got lost in a daze
And it's violet plunder
I had your heart in a cage

Now play in half-time
I need my resting heart rate
But you're a California earthquake

When did you get so clever?
You can talk circles around me
You're so clever
Oh you used to have me,
Now your tongue's got your cheek
And I'm wrapped up
But I kinda like it
Yeah, I kinda like it

If this is how I'll go,
I wanna go out strong
I wanna talk you under the table
With one more song

You can talk circles around me
But we'll just keep spiraling down

When did you get so clever?
You can talk circles around me
You're so clever
Oh you used to have me,
Now your tongue's got your cheek
And I'm wrapped up,
But I kinda like it
Yeah I like it
