

Save This

Dreamshade

A change of directions
You said: "Why even try?"
I felt disconnection
But I pushed it in the back of my mind
Since we never find a way...
A way to clarify
And we never care about
What we burn and leave behind...

Save this, we'll be alright
Live it like it's our last night
Wasted times that swing right by
Making memories to feel alive
This is a declaration
Don't wanna say goodbye
A new destination
A way to make you smile
And if we'll never make it
At least we'll know we tried. (Yeah!)
We gave our everything
Nobody can deny

I've been away. Neglecting you
(Forgetting what we live for)
Came back to stay where we belong
(This is the reason to live for)

Save this, we'll be alright
Live it like it's our last night
Wasted times that swing right by
Making memories to feel alive
Save this, we'll be just fine
Live it like it's our last night
Wasted times that swing right by
A thousand memories to feel alive

Strong desire that unites us
If you feel it sing along with me
Save this!
Burning fire that's within us
If you need it let me hear you scream
Save this!

Feel alive..
(Time stands still when you fly so high)
To feel alive..
(Shining brighter than a million stars)
To feel alive..
(We gave our blood for this, can't you see?)
To feel alive..
(No one can take away our legacy)

Save this
Save this tonight
Make this
Make this right
