

## Summer Rose

Dreamtale

When the summer was falling through the leaves  
There were just many memories  
Of us dancing in the rain  
And feeling so so young again

Days turn into endless nights  
And those nights will not never end  
When we're holding each others hands  
Through out all the change

Stole my heart when the mood was right  
Stole my soul and the shining light  
The love for you is a big thorn in my heart  
I have tried to find the one true love  
I have failed with every sacrifice  
Summer rose ain't ready for my twisted love  
My twisted love

I move fast and with all my will  
Straight to point to make your heat complete  
I could never let that disappear  
The mood is heating through the air

Why you keep sending these signals  
Like we were born to be unite  
You leave me confused and in need  
Alone and incomplete

Stole my heart when the mood was right  
Stole my soul and the shining light  
The love for you is a big thorn in my heart  
I have tried to find the one true love  
I have failed with every sacrifice  
Summer rose ain't ready for my twisted love  
My twisted love

Time to tease and never touch ya  
Time to leave and never love ya  
Wicked is my love, you're like a man without a heart  
I get that feeling sometimes  
Maybe I miss, maybe I don't  
Well, that's the thing with summer rose
