

Where the Rainbow Ends

Dreamtale

In my dream I was in a valley
By waters clear as ice
Trees and mountains that surround me
Nothing so beautiful have I ever seen
Can a place like this these days still exist?
A place people haven't destroyed yet
There's no pollution, just fresh air
There are no men who wouldn't care
This is the paradise where I want to stay
Where no one else can find a way

Where the rainbow ends
There I go, there I mend
There's the land of the free
There's the place where I want to be
There I go-Where the Rainbow Ends

Mystery of this place keeps fascinating me
It preoccupies my mind, time after time
When I look at the sky and I see birds fly
It's a play at my theatre
Into this dreamland I always come back
Where my life goes on in the same, safe track
I'll show you the place you've never been
This is the paradise where I want to stay
Where no one else can find the way
