

Jack

Dreamville

Know how you want it
I got just what you need
Break your back and move it just like some keys
Know how you want it
I got just what you need
Know how you want it
I got just what you need

You know where I be, ay
I'm in the back, back
Smoking on pack, pack
I got a fat sack
You want your bitch back
But you can't have that
We drinkin' cognac
She high off contact

She keep rubbin' on me, ay
This ain't no rap cap
I got my swag back
I feel like Mike Jack
Pay me on Cash App
I need them racks, racks
Dig in my backpack
Then pull out fat stacks

Keep hunnids on me, ay
I do it all Jack
I do it all Jack
I do it all Jack
Don't worry about me, ay

I got it all Jack
I got it all Jack
I got it all Jack
You know where I be, ay

I do it all Jack
I do it all Jack
I do it all Jack
Don't worry about me, ay

I got it all Jack
I got it all Jack
I got it all Jack

I do it all jack, you get your jaw smacked
I'm the last man standing, like Kennan from all that
Prayin' for Quavo
Prayin' for Offset
Your brothers your brothers forever
Like jean with the orange hat

Hampton U we started at
Puttin' a vibe on a dead city vibe
Desi and Tank man
I get you a ride

Few many stop me so many will try, try, try, try
Stick it movin, watch how I weave and bop
Not on my level go get you a job
I'm tweakin on waffles in Michelin Stars
Shut the fuck up you ain't willing to spar
Want no handouts, photo snapshots
All these damn thots, I just wear them out
I'm a wildcard, I'm'a stand out
With my day ones, out the sandbox
Smoking shamrocks mixed with moonrocks
Fuck what you thought
Y'all be dick riding I just choose not
Force of nature nothing you can do about it

You know where I be, ay
I do it all Jack
I do it all Jack
I do it all Jack
Don't worry about me, ay

I got it all Jack
I got it all Jack
I got it all Jack
You know where I be, ay

Know how you want it
I got just what you need
Break your back and move it just like some keys
Know how you want it
I got just what you need
Know how you want it
I got just what you need

Chase funds daily baby
Why the fuck you at my neck
I don't knock you for you choices
So don't knock me off my step
Used to knock when busters answer
Voodoo food in the pack
I can wake up train and whip the bogus skillet
I be on Jack

Skate palms on my back
Tired of porn want it back
Buddy how I ain't shpilly, you a spider what I lack

I do it all Jack
Saba don't call back
Not that fuck all that
I make the walls clap
Damn

Ain't that a bitch, damn
Ain't that some shit, damn
Hop off my dick, damn
What you give her the twist, yea

This my story, this my song, this my shit, yea
It's your glory if you wanna come and get it, yea

Know how you want it
I got just what you need
Break your back and move it just like some keys

Know how you want it
I got just what you need

Know how you want it
I got just what you need

You know where I be, ay
I do it all Jack
I do it all Jack
I do it all Jack

Don't worry about me, ay
I got it all Jack
I got it all Jack
I got it all Jack

You know where I be, ay

I do it all Jack
I do it all Jack
I do it all Jack
Don't worry about me, ay

I got it all Jack
I got it all Jack
I got it all Jack
You know where I be, ay

Know how you want it
I got just what you need
Break your back and move it just like some keys
Know how you want it
I got just what you need
Know how you want it
I got just what you need
