

# I Don't Know

dredg

I'm absorbed in mediocrity  
Been hollowed by uncertainty  
Glazed with profanity  
And conform like fraternity  
I yearn for serenity  
With endless possibilities  
Overwhelming capabilities

Singing, I don't know if I've been reborn,  
Lived a past life, suffered in another time,  
I don't know

Singing, I don't know if I've been reborn,  
Lived a past life, suffered in another time,  
I don't know

Give it up, give it up

Well I don't know what to believe anymore  
But every now and then I feel a moment of awakening  
But then it's gone, then it's gone, then it's gone  
Blanketed by the warmth of ignorance

Singing, I don't know if I've been reborn,  
Lived a past life, suffered in another time,  
I don't know

Singing, I don't know if I've been reborn,  
Lived a past life, suffered in another time,  
I don't know  
If I'll go somewhere special when I die  
If I'll go somewhere special when I die  
So I'll just go on living my way

There's a strength in duality  
Penetrate mentality  
Give it up, give it up  
I've learned from casualty  
Don't have faith in anything  
Give it up, give it up

Singing, I don't know know, no, I'll never know  
I'll give it up

Singing, I don't know if I've been reborn,  
Lived a past life, suffered in another time,  
I don't know

Singing, I don't know if I've been reborn,  
Lived a past life, suffered in another time,  
I don't know

Singing, I don't know if I've been reborn,  
Lived a past life, suffered in another time,  
I don't know  
If I'll go somewhere special when I die  
If I'll go somewhere special when I die

So I'll just go on living my way
