

In Touch

Dreezy

I say keep in touch with me
Rather you here touchin' me
Ain't this G all in ya spot
Just like how I'm supposed to be?
Put your legs up like 12 o'clock
Say you gotta go but you'll never leave

I say keep in touch with me
Rather you here touchin' me
Ain't this G all in ya spot
Just like how I'm supposed to be?
Put your legs up like 12 o'clock
Say you gotta go but you'll never leave

Say you gotta go but I don't
Can we get a little more ice or
Maybe pour a little more Hennessy?
Let me do something make you remember me
Netflix and make a movie
You already know what you do to me

Can we catch up?
You already know we bring something to the table
We just harmonize, then we end on the same note

I say keep in touch with me
Rather you here touchin' me
Ain't this G all in ya spot
Just like how I'm supposed to be?
Put your legs up like 12 o'clock
Say you gotta go but you'll never leave

I say keep in touch with me
Rather you here touchin' me
Ain't this G all in ya spot
Just like how I'm supposed to be?
Put your legs up like 12 o'clock
Say you gotta go but you'll never leave

I'm in your land, pick up the phone
You know I hate when I get alone
Like when you raisin' yo' tone
That shit be turnin' me on
His ex he ain't show her off
When he got with me, had to let it be known
Big body, let me drive the stick
Thumb in it, push start the whip
I ain't had that dick up in a minute
But like with jeans, I'ma make it fit
He open my doors and legs
And he give the head first, scholar and a gent
I'm in the lobby, he put all my Louie luggage on the dolly
He like it sloppy, I blew his cap off like Bobby
He can't be with no other bitch, I don't even want him on a molly
Cut off the phone, can't get no signal 'cause we on a island
Whenever he gone, he already know that I'm thinkin' about him
He know if he call, then I'ma pick up

How could you doubt me? Don't ever doubt me

Can we catch up?

You already know we bring something to the table

We just harmonize, then we end on the same note

I say keep in touch with me

Rather you here touchin' me

Keep this G all in ya spot

Just like how I'm supposed to be

Put your legs up like 12 o'clock

Say you gotta go but you'll never leave

I say keep in touch with me

Rather you here touchin' me

Keep this G all in ya spot

Just like how I'm supposed to be

Put your legs up like 12 o'clock

Say you gotta go but you'll never leave

(Say you gotta go but you never leave)

(Say you gotta go but you never leave)
