

Mind Games

Dreezy

Uh... Sometimes I fall for boys so fast I act like no one saw me,
and every time my phone ring I'm hoping that he call me, fought me,
killing me softly hot good to you like coffee you think I like you,
you caught me I told these niggas get off me for you oh you got me so deep,
seen you in my dream, dream boy I can't sleep I need you by me,
attracted to you sexually but inspired intellectually you scared to take a chance with me
just let it flow, don't know what yo ex's did to you but just let it go,
I told you that I fuck with you and then I let it show, don't never say we can't happen
because you never know if you don't put in effort then how we supposed to grow,
I let down my guards, boys done broke my heart, I ain't play it smart,
fell apart then fell in your arms, you ain't play yo part, now I'm harmed,
back to square one if you gone play this mind game just pick a fair one
