Ready

Dreezy

Wasn't thinking 'bout no nigga when you met me?
Baby I'm fucking with you heavy
I might put you on if you let me
Baby I'm ready when you ready
Ready when you ready babe
When I touched down in your city
Know you on your way to get me
Boy, I'm ready when you ready babe
I'm ready when you ready

Tell me and it's yours
I just wanna be sure
I treat him like a fiend
I know he coming back for more
I'm really everything you think I am
Boy it ain't no hype
Young independent with a bankroll
I could change yo life
You can have everything if you want it
Long as I know you that you can stay on it
Hair tied up when I'm chillin'
Told me I'm bad, I tell him I know it
Won't ride you if I can't own it
I'll take your heart if you loan it
Said you waited for me now show it
I just might open up for you only

Wasn't thinking 'bout no nigga when you met me
Baby I'm fucking with you heavy
I might put you on if you let me
Baby I'm ready when you ready
Ready when you ready babe
When I touched down in your city
Know you on your way to get me
Boy, I'm ready when you ready babe
I'm ready when you ready

You'll never get another blessing like me baby I bet that
And he keep it one hunnid when I'm coming at him, so I respect that
Takin' flights, they was sleeping on you like jetlags
Go shopping we don't check tags
Fuck around and be everything in my life except another setback
Caught feelings for him in the field something like a touch down
Both getting to the money first then we laying up when the sun down
Make them wanna do it like us now
Some I'mma give you the run down
Tell them other bitches you was fucking with that you done now

Wasn't thinking 'bout no nigga when you met me
Baby I'm fucking with you heavy
I might put you on if you let me
Baby I'm ready when you ready
Ready when you ready babe
When I touched down in your city
Know you on your way to get me
Boy, I'm ready when you ready babe
I'm ready when you ready
