Schizophrenia

Dreezy

All this pain in my blood man I'm trying to deal with it
(Pain inside my blood)
I think I'm going schizophrenic
Who have I become I don't know and now we're missing
(Who have I become)
I think I'm going schizophrenic
Searching for that love I don't know who I can trust
(Searching for love)
I think I'm going schizophrenic
(Who can I trust)
I think I'm I think I'm going schizophrenic
(Schizophrenia)
Schizophrenic think I'm going schizophrenic

I'm trying not to let my thoughts get to me
But they driving down a one way street
I'm dreaming about a girl taking over the world but in the mirror all
 that I see is me
I been hurt by people I protected
I made mistakes some not corrected
I zoned out on my haters like a lecture
But every time I turn around I'm facing more pressure
Where I come from niggas don't know morality
Fuck legality my mentality is vitality
Lack of normality killing both sexualities I just wanted to make it I
'm hunted by actuality like
Insecurities are my reality I got a boy that's on the side of me but
will he ride for me
I ask myself whenever he's inside of me how come I feel like I'm lost
 inside of me

Like anger depression frustration isolation deception
If I open up to you please don't judge me I want somebody anybody jus
t to love me
It's like I'm only happy when I'm not sober just living life sometime
s I wish that it was over
Trust who your enemies was once friends of ya I swear this life just
ain't me schizophrenia
I'm lost I need directions been running from the truth I'm out of bre
ath I need a second
But I just smile as if it's nothing wrong because until I find myself
 I'm just a perfect song
See when you feel neglected rejected it's hard for you to ever just f
orget it forgive it
You live your life surrounded but you still feel alone I'm not at hom
e even when I'm sitting at home I'm not myself any more

Everybody looking for me
I'm tryna find my way back
I feel like I'm going crazy
So maybe you should stay back
Out of my mind

I must be out of my mind yeah
Out of my mind
I'm running out of time I'm just trying to find me

I must be out of my mind yeah
Out of my mind
I'm running out of time I'm just trying to find me
