Outside

Drenge

Go tell the doctor
That every pill I've tried
Just made me take another pill
Since you made a reign out of my pride

I'm gonna have an x-ray
To see what's inside
I need to know what's wrong with me
Since you made a reign out of my pride
Yeah, you made a reign out of my pride
Oh, you made a reign out of my pride

It's so much better on the outside

You better lawyer up
Take a pack of lies
Because judge, jury, executioner
And you made a reign out of my pride

If you force a confession
Rendered and scribed
I did what I thought best for us
Since you made a reign out of my pride
Yeah, you made a reign out of my pride
Yeah, you made a reign out of my pride

It's so much better on the outside
Yeah, it's so much better on the outside

I can taste the
Bittersweetness
It's refreshing
Nothing beats this
In the safety
Of the future
I can't panic
I won't hurt you

Red lips, red kisses
On the base of my spine
We whisper words of encouragement
Since you made a reign out of my pride

Now we live in the shadows
Drunk by design
And you know we got what was coming for us
Since you made a reign out of my pride
Yeah, you made a reign out of my pride
Yeah, you made a reign out of my pride

It's so much better on the outside
Yeah, it's so much better on the outside
It's so much better on the outside
It's so much better on the outside
