

Dudn't It

Drew Baldridge

Feels good to hear the river run
From a flint rock front row seat
Feels right to see a sun drop
That god just painted for me

I've been long gone
A little too long chasing that neon dream
I've been rut stuck
Had me enough
Think I know what I need

Gimme me that girl barefoot shot gunning it
A plow with a tractor running it
An old 6 string and a cowboy chord
You can find me on a back porch strumming it
Slow down gravel ride
Back in that small town state of mind
Gimme that life I'll be nothing but lovin' it
Country sounds pretty good now dudn't it

Don't you miss a kitchen with the chicken fried up in it
Side of the road farm stand corn shucking it
Driveway with a two tone truck in it
Any other way ain't cutting it

Gimme that pontoon hot lake sunning it
Yeti with an ice cold bud it
Friday night and some slim Jim seats
Ball back deep and away team punting
Slow down gravel ride
Back in that small town state of mine
Gimme that life I'll be nothing but lovin' it
Country sounds pretty good now dudn't it

Gimmie that girl barefoot shotgunning it
A plow with a tractor running it
And ole six string and a cowboy chord you can find me on a back
porch
Slow down gravel ride
Back in that small town state of mine
Gimme that life I'll be nothing but lovin' it
Country sounds pretty good now dudn't it
Country sounds pretty good now dudn't it
