

I Do Two

Drew Baldrige

I don't know how your heartbreaks going
I don't know what it's like on your side
All I know is if you're anything like me
You'd wanna know about mine

So hear I am, calling you up lonely
How's it been baby on your own?
I guaranteed compared to me
You're twice as hard to let go

For every want me back prayer that you sending up
For every getting over me drink in your cup
For every lap you take back to me and you
Baby, I do two
For every heartbreak song that you sing along
For every time you wonder where we went wrong
For every one missing us thing that you do
Baby, I do two

And how's it feel when you see an old truck?
Does it make you wanna climb in mine?
Do you look for a Realtree sticker
On the back window of the passenger side?

Do you remember those summer nights
By the water with the windows down?
Cold beer, talking 'bout forever
I'd do two of those right now

For every want me back prayer that you sending up
For every getting over me drink in your cup
For every lap you take back to me and you
Baby, I do two
For every heartbreak song that you sing along
For every time you wonder where we went wrong
For every one missing us thing that you do
Baby, I do two
Yeah baby, I do two

Baby, I do two
Double takes every time that I see you out
Took two months to drive back by your house
Still see those two eyes that I can't live without
Girl, compared to me
You're just twice as hard to leave

For every want me back prayer that you sending up
For every getting over me drink in your cup
For every lap you take back to me and you
Baby, I do two
For every heartbreak song that you sing along
For every time you wonder where we went wrong
For every one missing us thing that you do
Baby, I do two
Baby, I do two
Yeah baby, I do two

I don't know how your heartbreaks going
I don't know what it's like on your side
All I know is if you're anything like me
You'd wanna know about mine
