

# When I Fall

Drew Baldridge

When I fall, I fall like a brick out a window  
Yeah I fall, like a house dropped out of a tornado

You're like gravity, pulling me so fast and free  
I don't see no net below, don't let go

When you jump I jump  
When you run I run  
When you fly I fly  
I don't care how high  
In the air with you  
There's no parachute

When I fall, when I fall, when I fall with you  
Yeah girl I'm going down, all you gotta do  
Is call, when you call, you're a wrecking ball  
And I, a wall when I fall

I shatter like glass in a hailstorm  
When I crash there's no brakes on my heart  
I can't slow it down, and I don't really want to

Like the sun can't stop, it has to drop  
From every sky, it's out of my control with you  
And I'm dropping too

When you jump I jump  
When you run I run  
When you fly I fly  
I don't care how high  
In the air with you  
There's no parachute

When I fall, when I fall, when I fall with you  
Yeah girl I'm going down, all you gotta do  
Is call, when you call, you're a wrecking ball  
And I, a wall when I fall

You're like gravity, pulling me so fast and free  
I don't see no net below, girl don't let go

When you jump I jump  
When you run I run  
When you fly I fly  
I don't care how high  
In the air with you  
There's no parachute

When I fall, when I fall, when I fall with you  
Yeah girl I'm going down, all you gotta do  
Is call, when you call, you're a wrecking ball  
And I, a wall when I fall

(When I fall, when I fall  
When I fall, when I fall)
