

Cold Beer And Copenhagen

Drew Green

I've got a few bad habits
I've got a couple gotta have its
I've got some quit for a day
Then my hands start to shake
And I'm right back at it

I love a Miller Lite buzz
And wintergreen long cut
But what I love best is that 2am text
Saying, "Baby, you up?"

I don't understand why I love everything that's bad for me
Why it's harder than it has to be
You're the best kind of fix I can get
But you're just another thing I need to quit, yeah
Even though I know its only for one night
What's one more gonna hurt, it's only one more time
I ought to put you on that list
Things I love but wish I hated
With cold beer and Copenhagen

It's the temporary high
It gets harder every time
Something's gonna get me
If the other 2 don't kill me
You're the something that might
And I want you tonight

I don't understand why I love everything that's bad for me
Why it's harder than it has to be
You're the best kind of fix I can get
But you're just another thing I need to quit, yeah
Even though I know its only for one night
What's one more gonna hurt, it's only one more time
I ought to put you on that list
Things I love but wish I hated
With cold beer and Copenhagen
Cold beer and Copenhagen

If I could go back to way back when
I would've never fell in love with you or either of them
Now I say that I won't do it but I do it again
Hiding two from my momma and one from my friends

I don't understand why I love everything that's bad for me
Why it's harder than it has to be
You're the best kind of fix I can get
But you're just another thing I need to quit
Even though I know its only for one night
What's one more gonna hurt, it's only one more time
I ought to put you on that list
Things I love but wish I hated
With cold beer and Copenhagen
Yeah, I'm gonna put you on that list, girl
Right there at the top of it, baby
With cold beer and Copenhagen
