

Town Drunk

Drew Green

I was born in that hospital
Saved in that church
But no doubt about it I've raised a living
Of hell on this earth
It's a part of me and I thought it'd be
The last place on earth
That wouldn't feel like home
Since you've been gone

I don't wanna leave the house
I don't wanna see you out
'Cause that turns into bottles
Turnin' upside down
I turn into a different person
Killin' bourbon
'Cause I'm hurtin' girl right now
And the only way I can stand
Staying in this town
Is to stay in this town drunk

Got me drinking
About us
Pour a double
Round up
Long as you're here hanging around
I'm staying this town drunk
Town drunk

There ain't a field we ain't parked at
Ain't a spot where we ain't kissed
I'm sick of this apartment
But it is what it is
I take back the Jack and I take a swig
Don't want you or my friends seeing me like this

I don't wanna leave the house
I don't wanna see you out
'Cause that turns into bottles
Turnin' upside down
I turn into a different person
Killin' bourbon
'Cause I'm hurtin' girl right now
And the only way I can stand
Staying in this town
Is to stay in this town drunk

Got me drinking
About us
Pour a double
Round up
Long as you're here hanging around
I'm staying this town drunk
Town drunk

The last thing I need on a Saturday night
Is blue lights on my tail lights or a bar fight
'Cause you walk in with another guy

So baby that's why

I don't wanna leave the house
I don't wanna see you out
'Cause that turns into bottles
Turnin' upside down
I turn into a different person
Killin' bourbon
'Cause I'm hurtin' girl right now
And the only way I can stand
Staying in this town
Is to stay in this town drunk

Stumble drinking about us
Pour another
Round up
Long as you're here hanging around
I'ma stay in this town drunk
Town drunk
And the only way I can stand
Staying in this town
Is to stay in this town drunk
