

## New Year

Drew Holcomb & The Neighbors

Fireside conversations  
Bourbon on our breath  
Laughter in the kitchen  
The children make a mess  
From the front porch to the backyard  
Tragedy in between  
It's a New Year  
It's a new song  
It's the same mystery

We talk about your brother  
Stories left unheard  
You share blood  
But you don't share words  
Same room on Holidays  
No apologies  
It's a New Year  
It's a new song  
It's the same mystery

Cool of October  
We feel the sorrow of St. Jude  
Void between strangers  
As the clock quickly moves  
It's a long way from paradise  
So long way from Eden's Tree  
It's a New Year  
It's a new song  
It's the same mystery

Six months turns to six years  
Time is like a ghost  
Lost in my mind again  
Yet suddenly I'm alone  
That loneliness comes and goes  
It speaks harsh words to me  
It's a New Year  
It's a new song  
It's the same mystery

Walking through my neighborhood  
I have nothing left to say  
Life and death they never rest  
And I still got bills to pay  
On earth as it is in heaven  
It don't make sense to me  
It's a New Year  
It's a new song  
It's the same mystery  
It's a New Year  
It's a new song  
It's the same mystery
