

If It Don't Help

Drew Parker

If you want a little taste of heaven
With a side of country ham for breakfast
Better be at mama's bake and wait your turn
If you want to catch a large mouth bass
And reel him in on your very first catch
Your gonna need the perfect plastic worms
Yeah there's just some things you gotta have

But you ain't gotta drink to have fun
Lay a blanket in the bed of a truck to make a little love
Don't need a six string to sing your favorite song
Ain't gotta have money to have it made
Ain't gotta be raised on a little bit of red dirt clay
Love cold beer, and raise a little hell
But damn if it don't, damn if it don't help

If you think you got a fighting chance
You gotta ask that girl to dance
If you need a buzz ain't nothing like a long slow midnight kiss

But you ain't gotta drink to have fun
Lay a blanket in the bed of a truck to make a little love
Don't need a six string to sing your favorite song
Ain't gotta have money to have it made
Ain't gotta be raised on a little bit of red dirt clay
Love cold beer, and raise a little hell
But damn if it don't, damn if it don't help

You ain't gotta drink to have fun
But if you got one in your hand just raise it up

But you ain't gotta drink to have fun
Lay a blanket in the bed of a truck to make a little love
Don't need a six string to sing your favorite song
Ain't gotta have money to have it made
Ain't gotta be raised on a little bit of red dirt clay
Love cold beer, and raise a little hell
But damn if it don't, damn if it don't
Damn if it don't, damn if it don't help
Damn if it don't help
