

2nd Impression

Drew Seeley

I saw you pass my apartment
You're still wearing my shirt
That's something that I can part with
But I want you so bad that it hurts

I don't even know if you still see me with you
I'm hoping maybe you do, cause..

The first time around
I know we lost what we found
It took losing you to teach me a lesson
Promise next time around
I won't let you down
If you let me make a second impression
I know just what you're afraid of
So let me show you just what I'm made of
Cause maybe I can be what you told me that you need
If you let me make a second impression

I know I took you for granted
While you were putting me first
That was not how I planned it
And now it's making me hurt

And all that I know, is that I see me with you
Just tell me what I gotta do, 'cause..

The first time around
I know we lost what we found
It took losing you to teach me a lesson
Promise next time around
I won't let you down
If you let me make a second impression
I know just what you're afraid of
So let me show you just what I'm made of
Cause maybe I can be what you told me that you need
If you let me make a second impression

With a second impression
This time I won't leave you guessin'
How long?
You don't know what you've got till it's gone
You can't know what is right till you're wrong

Cause the first time around
I know we lost what we found
It took losing you to teach me a lesson
Promise next time around
I won't let you down
If you let me make a second impression
I know just what you're afraid of
So let me show you just what I'm made of
Cause maybe I can be what you told me that you need
If you let me make a second impression
