Artifacts

Drew Seeley

Some kind of prank from the universe
You were too good to be real
Got the feels right away
[?] had to be with you

Had my heart unlock, couldn't stop it
We checked all the boxes
Unexpected, we connected
And I knew, forever it's me and you

But somehow things went south
Noise just got too loud
We're never wrong, we're too proud
And look at us now

We are just artifacts
Tiny little pieces are all
That's left of what we had
How did it get this bad?
Girl have we jumped the track
Have we gone so long down the road now
That we can't get back
Can't live with that

Oh...

You're acting like you don't know me
Now you don't even sleep in my shirts
I don't why but it hurts
'Cause baby I know we're not done yet
Always fall asleep at the movies
But I'm the one that takes you home
Still love you, need you
Don't wanna do life on my own

But somehow things went south
Noise just got too loud
We're never wrong, we're too proud
And look at now

We are just artifacts
Tiny little pieces are all
That's left of what we had
How did it get this bad?
Girl have we jumped the track
Have we gone so long down the road now
That we can't get back
Can't live with that

No I'll never turn my back on you girl
Listen to the rest of the world
So hang on tight and it's gone get better, hey
Can't [?] kissing me
You know just what you mean to me
[?] ain't your protector
We can put this back together

Just artifacts
So here we are tonight
Just a puzzle made of memories
We gotta find that missing piece of us
I don't know why we always fight
Maybe there's a way that we could turn back time
So we're not just artifacts, whoa
Gotta get back to what we had
I don't wanna be... no...

We ain't gotta be artifacts
Tiny little pieces are all
That's left of what we had
How did it get this bad?
Girl have we jumped the track
Have we gone so long down the road now
That we can't get back
Can't live with that, no

I'll never turn my back on you girl
Listen to the rest of the world
So hang on tight and it's gone get better, hey
Can't [?] kissing me
You know just what you mean to me
[?] ain't your protector
We can put this back together
These artifacts
