Body On Me

Drew Sycamore

Get the light, spend the night, get your body on me
Ain't nobody but you get's my time for free
Save the best for last for nobody but me, me, me, me, yeah

A thousand rivers to fall in
You put your mind over me
And that's where I'm drownin'

All you ever wanted
Consider it done (Done)
Why you coming over?
Boy, what you want? (Want)
I'm not gonna say goodbye with words this time

Get the light, spend the night, get your body on me
Ain't nobody but you get's my time for free
Save the best for last for nobody but me, me, me, me, yeah

Take a jump, take a dive, in my current affairs
I had you in my mind at the top of the stairs
Get the lights and put your body on me

You put your body on me 'cause you don't wanna go
You heard your heart break down on the radio
You wish your words could rhyme
Every time you're looking at me

'Cause all you ever wanted
Consider it done (Done)
Why you coming over?
Boy, what you want? (Want)
I'm not gonna say goodbye with words this time

Get the light, spend the night, get your body on me
Ain't nobody but you get's my time for free
Save the best for last for nobody but me, me, me, me, yeah

Take a jump, take a dive, in my current affairs
I had you in my mind at the top of the stairs
Get the lights and put your body on me
