

Bodytalk

Drew Sycamore

Same place and time tonight
In the dark (In the dark)
Feeling so high, shivers up
Down my spine (Down my spine)

Baby, I've been waiting
Now that is quarter to five
I can't get you out of
Can't get you out my mind
Baby, I'm on fire
Just wanna drown in your eyes
Baby, baby, baby

I'm dying
I only come alive when your body talks
No point denying (Ah, ah)
I only come alive when your body talks

Why don't you know, I'll go
Out my mind (Out my mind)
If we combine it could
Like the night (Like the night), mm, yeah

Can't take this any longer
I long for the special time
I can't get you out of
Can't get you out my mind
Baby, I'm on fire
Just wanna drown in your eyes
Baby, baby, baby, yeah, yeah

I'm dying
I only come alive when your body talks
No point denying (Ah, ah, ah)
I only come alive when your body talks

You know I'd be lying if I said I don't
Why don't you come and make my, make my body talk
