

Destiny

Drew Sycamore

Confessions in the dark
Uh it felt like lightning from above (from above)
And every word that I said oh it burns on my face like the sun yeah

Serenades from the balcony
I want you on top of me
Let it rain but don't forget
Make me feel like Juliet
Serenades from the balcony
I want you on top of me
Let it rain but don't forget
To make me feel like

Destiny
Are you feeling me
I'm your destiny
Don't you feel this beat
Like your destiny
Your revenge feels so sweet
It's your destiny (destiny)
Cause your heart just beats

Oh you vengeful Gemini
Uh you tasted lightning for the first time
And every word that you said yeah it burns like a flame on my tongue

Serenades from the balcony
I want you on top of me
Let it rain but don't forget
Make me feel like Juliet
Serenades from the balcony
I want you on top of me
Let it rain but don't forget
To make me feel like

Destiny
Are you feeling me
I'm your destiny
Don't you feel this beat
Like your destiny
Your revenge feels so sweet
It's your destiny (destiny)
Cause your heart just beats

Day after day
As the sun slips away
I'm what you want
I'm what you need
You know that I'm your destiny

Destiny
Are you feeling me
I'm your destiny (you know I am)
Don't you feel this beat
Like your destiny
Your revenge feels so sweet
It's your destiny (destiny)

Cause your heart just beats

(System overload)
(I know you really wanna)

Uh don't you know that you should make me feel like

Destiny
Are you feeling me
I'm your destiny (baby I'm your)
Don't you feel this beat
Like your destiny
Your revenge feels so sweet
It's your destiny
Cause your heart just beats for me
