

# Electric Motion

Drew Sycamore

Do you have faith?  
Do you feel it?  
Is this how love feels?

Why  
Why can't I just get you out my mind?  
Something 'bout you keeps me up at night  
Got me ooh, got me ah  
Get me feeling so alive, ah

I can't forget you  
Now that I met you, I  
I can't forget you  
Now that I met you, why?  
Oh, 'cause

Baby you're making me crazy  
Feeling electric when I think of you  
Baby you're making me crazy  
I'd do anything to be the one for you

Just  
Give a little extra of your touch  
Meet me halfway, I don't ask for much  
I'll get you ooh, get you ah  
I'll get you all the things you like

I can't forget you  
Now that I met you, I  
I can't forget you  
Now that I met you, why?  
Oh, 'cause

Baby you're making me crazy  
Feeling electric when I think of you  
Baby you're making me crazy  
I'd do anything to be the one for you

Electric motion  
Electric motion  
Electric motion  
Electric motion

Why do I feel this way when I'm with you?  
Emotion is electric, and I feel (I feel it)  
Oh, 'cause

Baby you're making me crazy  
Feeling electric when I think of you (Feeling so electric, ah)  
Baby you're making me crazy  
I'd do anything to be the one for you

Electric motion (For you)  
Electric motion (I feel it)  
Electric motion (It's all I ever feel)  
Electric motion (I feel it)  
Electric motion
