

Fever

Drew Sycamore

Ecstasy
You're leaving me in ecstasy
And every night you walk away
You make me say
Uh

My desire
You're everything that I desire
You make my body feel the groove
It feels so good

Oh no
I don't know why
Oh no no no
I don't know why

You give me fever
Feels like my head is spinning off
You give me fever with your touch
You give me fever
The night is young and I'm in luck
You've got the fever in your touch (touch)

Fever
Fever
Fever
Fever

Ecstasy (ecstasy)
Always leaving me in ecstasy
It's not about how bad it gets but how good it feels
Uh

My desire (desire)
You're everything that I desire
And I long to be right next to you it's overdue
Uh

Oh no
I don't know why
(I don't know why)
(I can't wait to know)
Oh no no no
I don't know why

You give me fever
Feels like my head is spinning off
You give me fever with your touch
You give me fever
The night is young and I'm in luck
You've got the fever in your touch (fever)

Fever
Fever
Fever
Ah

You give me fever
Feels like my head is spinning off
You give me fever with your touch
You give me fever
The night is young and I'm in luck
You've got the fever
Touch
