

Surfer

Drew Sycamore

He will rise and shine
Before the sun hits
And he's catching every wave from early morning

He'll come and go
In the middle of the night
He'll come and go
Don't ever let him out of sight

He's a surfer
He likes to boogie
He's a surfer
He likes to boogie
He's a surfer
He likes to boogie
All night (all night, all night, all night)

First flight in this season
He's from out of town yeah (he's from out of town, maybe even overseas)
Time just disappears when he's around around around (around, around, around)

He'll come and go
In the middle of the night
He'll come and go
Don't ever let him out of sight

He's a surfer
He likes to boogie
He's a surfer
He likes to boogie
He's a surfer
He likes to boogie
All night (all night, all night, all night)

Uh baby
Uh baby
Oh oh oh oh
Oh my baby

He's a surfer
He likes to boogie
He's a surfer
He likes to boogie
He's a surfer
He likes to boogie
All night
