Take It Back

Drew Sycamore

You should take it all back, take it back
You could just take it all back, take it back
Easy to take it all back, take it back
You could just take it all back, take it back
Take it back

If only we could go there for a minute
Just say that what you said's not what you meant
So what, you still come over? Just admit it
I'll forgive it

Say you'll be running a-, running a-, running a-, running away (Runni
ng away)
You always running a-, running a-, running a-, running away (Running
away)
Now you keep running a-, running a-, running a-, running away
Oh, won't you stay?

You should take it all back, take it back
You could just take it all back, take it back
Easy to take it all back, take it back
You could just take it all back, take it back

It's just a minute of madness
Hold me close
It's just a minute of madness
Don't you put on your clothes
Get me high (Ooh)
Get me low (Ohh)
Get me high (Ohh)
Get me low (Ooh)

You should take it all back, take it back
You could just take it all back, take it back
Easy to take it all back, take it back
You could just take it all back, take it back
You could just take it all

Ooh, yeah
Ooh
Yeah
Ooh

You should take it all back, take it back
You could just take it all back, take it back
Easy to take it all back, take it back
You could just take it all back, take it back
You could just take it all
