

The Rhythm

Drew Sycamore

The rhythm of my body
Can't get over you
The rhythm is the highway
That leads me back to you

I never meant to go and get to attached
But you got every stranger in here turning to ash
I want every moment I can't wait for the flash, the flash
Can't get over you aha aha
Can't get over you aha aha
I can't get over how you make me feel
Oh won't you just be mine

Because the rhythm of my body
Can't get over you
The rhythm is the highway
That leads me back to you

I think about it every time that I move
Cus' what your doing makes me look like a fool
I think about it every minute with you, with you

Wanna be with you, night and day
Cus' earth, wind and fire
Can't keep me away

The rhythm of my body
Can't get over you
The rhythm is the highway
That leads me back to you
It's like letting go of magic
When letting go of you
Because the rhythm of my body
Can't get over you
