

As If

Driller Killer

I got a bunch of whitecoats on my tail
And with their "service", I can't fail
Another bloodtest, another session
Still on the juice? How about aggression?

They want to make a man out of me
As if I owe a cent to this society
They are the reason for the so called anarchy

Shrinxntherapists are on my back
This hellhound stray is f**king hard to track
This bloody crap is not about to change
Why don't you get it - Diagnose: deranged
