

## **Scream Suffer Die**

**Driller Killer**

You come into this with a bloody scream  
Then when you suffer...  
Then when you suffer you know it's for real  
You're forced into this with a fucking scream  
Now when you suffer the pain is for real  
( Just when you thought it was safe )

You scream, you suffer, you die  
Scream suffer die

No light at the end - no use to pretend
