

surfacing

Drist

I thought I fooled you all, here
In this shallow surfacing
A ring around it all, showing you
This is all I know

Thought you gave it all, right here
But I saw it go down
You became it all, wants and needs
And I saw it go

If you only could see

I can't give you up, if only I could
I can't lift you up, if only I should

Wait here, I'm coming
