

Away

Driving East

Sixteen with no direction
Twenty-five, with no way out
Not a chance you'll ever make it
Our feet are barely off the ground

But I can take a punch like crazy
And save them up for rainy days
You're either with me or against me
To take a chance to swing away

This life ain't always easy
Away
This life is all I have

Not a sure shot or an easy bet
But it keeps me hanging on
(Away)

Don't say that I didn't warn you
You gotta, you gotta run
Don't say that I didn't warn you
You gotta, you gotta run
Don't say that I didn't warn you (take your time, we grow up wa
y too fast)
You gotta, you gotta run
Don't say that I didn't warn you (take your time, we grow up wa
y too fast)
You gotta, you gotta run

Don't give it away
This life ain't always easy
Away
This life is all I have

Not a sure shot or an easy bet
But it keeps me hanging on
Away

We are the kids who won't stop believing
(We are the kids that won't stop believing)
We are the kids no one can ignore
(We are the kids no one can ignore)
You can't take that away
Away
