

# ATTACHMENT PROBLEMS

Dro Kenji

All of my hoes got attachment problems  
Everywhere I go, they get so excited  
I'm so over, over, crying  
I'm so over, over, lying to you  
Baby, you don't gotta stay, you know I'm colder than you  
Trust me, I can fuck you crazy, bring the ho out of you  
It's just been fucking up my brain, how you don't call, where are you?  
It's all down to you (It's all down to you)

She said she barely felt her heart break  
But you know that mine's aching for you  
She said she barely ate nothin' all day  
Bae, I was sittin' 'round, thinkin' 'bout you  
Can you read the stare on my face?  
Let's dream about it, bae, that's all we can do  
Tell me how to make it fair, I rest my case  
Everybody weird me out  
We in a whole different space

Take the risk, hurry up, it's better if we nip it in bud (If we nip it in bud)  
Take the risk, hurry up, it's better if we hurry, hurry, hurry, hurry

All of my hoes got attachment problems  
Everywhere I go, they get so excited  
I'm so over, over, crying  
I'm so over, over, lying to you  
Baby, you don't gotta stay, you know I'm colder than you  
Trust me, I can fuck you crazy, bring the ho out of you  
It's just been fucking up my brain, how you don't call, where are you?  
It's all down to you (It's all down to you)

Do you really care about our fate?  
'Cause' I've been dreamin' and it's all about you  
I've got problems, they inside me and they pulling my chains  
Attachment problems, yeah  
But I move on and still walk away  
Girl, I got lost but I'm just finding my way  
I thought these hoes would be the answer, deep inside I'm afraid  
You know that I could be a savior, I don't know how to save  
You know I love you but I'm walking away

Tell me this will never end  
It's better if we take it to the finish line  
Take the risk, hurry up, it's better if we hurry, hurry, hurry, hurry

All of my hoes got attachment problems  
Everywhere I go, they get so excited  
I'm so over, over, crying  
I'm so over, over, lying to you  
Baby, you don't gotta stay, you know I'm colder than you  
Trust me, I can fuck you crazy, bring the ho out of you  
It's just been fucking up my brain, how you don't call, where are you?  
It's all down to you
