

DROWN

Dro Kenji

Deafen, can't hear shit no more
FN's, I'll kill 'em to save your heart
Fire five more shots, now let's fix this hurt
If one thing's for sure, then I'm high off Earth
Deafen, leave the world when you're not 'round
FN's, you should kill 'em if I go down
If this end, might as well burn the world to the ground
The deep end's just a moment away, but I drown

Who gon' love me right now?
Who gon' hold me right now?
Who gon' keep me right now, forever?
Who gon' love me right now?
Who gon' hold me right now?
Who gon' keep me right now, forever?

Watch me go take five more shots, bottles up at 'em
I don't do friends, middle fingers stay up at 'em
Dro like to be all alone, kayak boat paddle
Whipping this bitch way too fast, I hit both pedals (Skrtrt)
Rich as hell, I don't give a fuck, okay
Sad, so I smoke, but it's fucked, okay
Walk in YSL, smell like moon rock
I been smokin' everywhere, like I'm in love with the pot
I don't know a lot, but know for sure what you're not (Oh, no)
I know it's up in outer space because I go there a lot (Oh)
I used to try to find your love up there, but I got lost (Yeah)
But fuck the talkin', I'ma always be the one that don't run, don't run
Why you tryna love me now, for what? You done or what?
Hard for me to love sometimes, I just give up
Fuck it, you know it's too hard to trust (Uh, yeah)
Shit, for all that you know I'm the worst nigga to trust (Whoa, yeah)

Deafen, can't hear shit no more
FN's, I'll kill 'em to save your heart
Fire five more shots, now let's fix this hurt
If one thing's for sure, then I'm high off Earth

F.N. clip, empty it out in here
Shots ringing, if you hatin', I'ma take off his ear
Like, I don't want these niggas hearin', what I'm sayin' too real
No wonder why they wanna be just like me, I'm too ill

Deafen, can't hear shit no more
FN's, I'll kill 'em to save your heart
Fire five more shots, now let's fix this hurt
