

HOW U FEEL?

Dro Kenji

Yeah, yeah
(Census, what you cookin'?)
Yeah, yeah
Yeah
Oh

Back in for rehearse, I can't pretend I want to
Break me out this hell, I'll pretend I want you
Tell me how you feel 'cause I've been under a spell
Tell me how you feel 'bout all the pain you've dealt
Got rich by myself, I won't pretend I need you
You just need some time away from me, I read you
Tell me how you feel 'cause I've been under a spell
Tell me how you feel 'bout all the pain you've dealt

She a demon, uh
She said she need it, uh
High on Venus, uh
That make life way easier
I'm in a UFO, I'm barely down here on the Earth
She suck my dick and I say, "Wow, you beat it 'til she curse"
Watch me pull this Bentley out
She gon' pull her titties out
Rockstar, no lights down
Turnt up with my blicky out
That ho act she ain't need me
Got a whore that's eeny-teeny
Demon whore, she dreamy-dreamy
Fuck love, new Lamborghini

Save me, like, where's my genie?
I've just been losin' my peace
Don't you ever turn your back on me, you all that I need
Please say you scared to lose me and my heart not filled up with greed
You know ailments but every night I dream you with me

Back in for rehearse, I can't pretend I want to
Break me out this hell, I'll pretend I want you
Tell me how you feel 'cause I've been under a spell
Tell me how you feel 'bout all the pain you've dealt
Got rich by myself, I won't pretend I need you
You just need some time away from me, I read you
Tell me how you feel 'cause I've been under a spell
Tell me how you feel 'bout all the pain you've dealt

How awful?
Show me how often evil pop all night to show it's late and what's to come
Baby, you're not to show us fate and what went wrong
All of this heartbreak kill my soul when I'm alone (When I'm alone)

Save me, like, where's my genie?
I've just been losin' my peace
Don't you ever turn your back on me, you all that I need
Please say you scared to lose me and my heart not filled up with greed
You know ailments but every night I dream you with me
