

MONSTER

Dro Kenji

(Census, what you cookin')

Walking on the line, floating in the sky
Screaming we don't really feel no more
Stucking chemic in my mind
So me that you love me barely
I'm gon' show you how I'm feeling with my words
Lil baby I'm a monster, baby I'm the curse
I know this whore gon' do it proper
Show me how it works
It's like I'm living in a nightmare
I've been through the worst
It's like I'm living in a nightmare
I've been through the worst

Shawty want my heart from me but my shit barely work
If I finish off this Henny, I could probably leave this earth
I've been running from my problems
Bought my German bitch a purse
Like everything I rock exotic
Bring the cat in a trackhawk
Look like I ain't got no worries
Diamonds cold, and now I'm blurry
I can hear the cash calling
Falling down like money flurry
Rich like I forget my burdens
I can tell you if it's worth it
Know I love you any more
So I'm gon' keep my heart cause I've been

Walking on the line, floating in the sky
Screaming we don't really feel no more
Stucking chemic in my mind
So me that you love me barely
I'm gon' show you how I'm feeling with my words
Lil baby I'm a monster, baby I'm the curse
I know this whore gon' do it proper
Show me how it works
It's like I'm living in a nightmare
I've been through the worst
It's like I'm living in a nightmare
I've been through the worst

I run with eagles, I'm not in a hearse
But I'm still in jury, rappers can't step on my turf
With no ham and no cleef
I turned Hollywood to Hollyhood that blicky on me
I keep waking up them demons trying to take my soul from me
Leaning off the pain, I can see the rain
Know that I don't need no more
Ain't no way I keep that buh
If it was old days, I would walk around with a sword
My dark shades Louis V, I can't even see
Someone after me, but I'm still
But I'm still

Walking on the line, floating in the sky

Screaming we don't really feel no more
Stucking chemic in my mind
So me that you love me barely
I'm gon' show you how I'm feeling with my words
Lil baby I'm a monster, baby I'm the curse
I know this whore gon' do it proper
Show me how it works
It's like I'm living in a nightmare
I've been through the worst
It's like I'm living in a nightmare
I've been through the worst
