

ONE TIME

Dro Kenji

Be with me forever
It'll be perfect if you stay
The drugs been holding me together like I'm finally wide awake
It's just me and you together in this fantasy of mine
I can't believe it only took one time
I can't believe it only took one time (Time)
I can't believe it only took one time (One time)
I can't believe it only took one time
I don't think I got no more tries

Oh, I'm so sorry
I just don't care to stay for the bullshit
I ran up my money, looped it
Broke whores tellin' me rich delusions
I'm him I'm not sorry, fuck it
I'm happiest when smokin' ruckus
This bitch wanna take my soul and I don't know if I can trust it
Down for the cause
Is you playin' your role?
I have vivid dreams of bein' trapped inside your memories
I'm on new Balenciaga jeans and all the pretty things
I don't ever, ever fall in love so tell me why it took one time (One time)

One, one time
Can you hear me screaming out loud, loud, loud
One time
If you adore me, tell me now, now, now, now

Be with me forever
It'll be perfect if you stay
The drugs been holding me together like I'm finally wide awake
It's just me and you together in this fantasy of mine
I can't believe it only took one time
I can't believe it only took one time (Time)
I can't believe it only took one time (One time)
I can't believe it only took one time
I don't think I got no more tries

I can't believe you let our real love die
She can't believe I move around this high (This high)
I can't believe the drugs don't work no more
But I've been wildin' out so I see why
Be with me forever like you need it everyday
I've still been holdin' on forever like we'll never grow away
You say your heart been cold forever
There's a vacancy in mine
And no, I'll never, ever grow away
(I can't believe it only took one time)

One, one time
Can you hear me screaming out loud, loud, loud
One time
If you adore me, tell me now, now, now, now

Be with me forever
It'll be perfect if you stay
The drugs been holding me together like I'm finally wide awake

It's just me and you together in this fantasy of mine
I can't believe it only took one time
I can't believe it only took one time (Time)
I can't believe it only took one time (One time)
I can't believe it only took one time
I don't think I got no more tries
