Love me now, do you trust me now?

I been running from my problems, ain't no love around

Bet we could take a trip to Saturn, I'm so high in the sky

Like why this ho keep tryna text me? I'm too gone to reply

I got Amiri on my jeans, I'm so fly, I think she like me

Oh, I just pulled up in a Rover

Don't want no thots around, these bitches got me wanting me a w  
ifey

Oh, don't you tell me that it's over

Sipping lean, hide the flask, had to keep her in the past

I met your girlfriend at a party and she love to shake her ass

Don't want no thots around, these bitches got me wanting me a w  
ifey

Oh, don't you tell me that it's over

I know she get super slutty when she hang out with her friends

I just-I just had like half a Addy now I feel like superman

I know this bitch gon' try to fuck 'cause I be running through  
these bands

I went too far up in the sky off half a Perky, couldn't land

And don't spare me now, she said my wish was her command

You love tearing me down, I'm changing hoes like different stra  
nds

My demons steering now, can you protect me with your hands?

Army bigger than Iran, he saw my gang, he should've ran

Love me now, do you trust me now?
