

# TRANCE

Dro Kenji

Yeah  
(Census, what you cookin'?)  
(Perfect)  
Yeah

What it was (Oh), what it was we had (Oh)  
I ain't think that it would be this hard to get your poison out of my head  
You feel alone, but just know that you not alone

Your eyes take me to a different galaxy  
Get stuck to the cheddar, I love how they talk when I'm stackin' the dough  
I love how these bitches be lookin' at me like they want a lil' piece  
We could take us a daytrip right now, uh-huh  
Bitch, fuck up your town  
Woah, woah, woah, stuck in a trance  
Your eyes take me to a different galaxy  
Get stuck to the cheddar, I love how they talk when I'm stackin' the dough  
I love how these bitches be lookin' at me like they want a lil' piece  
We could take us a daytrip right now, uh-huh  
Bitch, fuck up your town  
Woah, woah, woah, stuck inside her trance

Hey, lil' baby, I get a whole lot of bands, ayy  
Send me a text, uh, I got a bitch in Japan, ayy  
She sendin' me BAPE, I'm stackin' it up, I need me a couple more hands, huh  
I'm runnin' late, I'll be there tomorrow, she gave me neck in the van  
She fell in love with me, callin' me father  
Are you dumb? I'm not your father  
Break her heart on a daily basis, she gon' need a heart doctor  
Mix my Sprite with drugs from the ER  
Spazz out, twelve shot, put me on the radar  
Convertible coupe got a engine behind me  
Runnin' away with the girl of my dreams

What it was (Oh), what it was we had (Oh)  
I ain't think that it would be this hard to get your poison out of my head  
You feel alone, but just know that you not alone
