

# VALHALLA

Dro Kenji

Hahaha, ah  
(Perfect)

She know she riding with a star  
Lately, I been thinking how we better together  
I wanna be there for you, it's hard  
I don't wanna put you under all of this pressure  
And I smoke too much, it clear my thoughts  
[?] into that loss  
What if I told you I been through hell  
Tryna stack the money up like a hundred feet tall

I'm on 95, I did a hundred in the slam  
I feel a teller, all these racks up in my hand  
It's fuck 'em 'til I leave this Earth and free my brother out t  
he pen  
Got this 'Rari loud as fuck, woke my neighbors up again  
Fuck it now I get money, I get hella dope  
Counting up, circle tighter than a cheerio  
I swear I say the realest shit but they don't hear me though  
Pull up masked up, yeah, I feel like Rey Mysterio  
And we lasted longer than I ever imagined  
And I was tryna save your heart but you ain't ever showed no co  
mpassion for me

She know she riding with a star  
Lately, I been thinking how we better together  
I wanna be there for you, it's hard  
I don't wanna put you under all of this pressure  
And I smoke too much, it clear my thoughts  
[?] into that loss  
What if I told you I been through hell  
Tryna stack the money up like a hundred feet tall

Stack the money up like a hundred feet tall  
She broke my heart and took that loss  
Ooh, she took that loss  
I'ma pull out right now a brand-new car  
I sip lean and sip my Voss  
Getting real high, I be lost in the clouds  
I, I just went to the Valhalla  
I just go off, I had her  
I just go off, I had her
