

## Demons

DROELOE

I built a prison in my mind to lock up demons who keep coming back

The rest, I leave behind before they all were aiming free  
I would forget them but they end up coming back relentlessly

But now I always know just where they are, I have the key  
The inside of their cell isn't so bad, they're a part of me  
I visit them from time to time and learn from what they see  
Together, we are free

I can't live without my demons! No more!  
(I can't live without my demons! No more!)  
I can't live without my demons! No more!  
(I can't live without my demons! No more!)

(I can't live without my demons...)

But now I always know just where they are, I have the key  
The inside of their cell isn't so bad, they're a part of me  
I visit them from time to time and learn from what they see  
Together, we are free

I can't live without my demons! No more!  
(I can't live without my demons! No more!)  
I can't live with- my demons! No more!  
(I can't live without my demons! No more!)

I can't live without my demons! No more!  
(I can't live without my demons! No more!)  
I can't live without my demons! No more!  
(I can't live without my demons! No more!)

I can't live without my demons! No more!  
I can't live without my demons! No more!  
(I can't live without my demons...)  
(I can't live without my...)

(I can't live without my demons...)
