

Downside Up

DROELOE

Behind a closing door
I think I might have lost the key
Locked in, locked out
I felt so safe before
Believing in my certainty

But I am not so sure, no more
Caught in the storm
It's raining down on me
Up to my knees
Room for the keys
But they're all fake
I tried them all
Made no mistakes
Fighting to breathe
I pray surrender
Be my shelter
Rescue me

While falling through the floor
I think there never was a key
Breathe in, breathe out
I love I've never known
A truth that always carries me
I hear it calling

The thunder sounds so welcoming
Rain down on me
So a new sun can pour through the cracks in the door
No need for keys
'Cause they're all fake
I tried them all
Made no mistakes
They're making me
I'll play surrender
Be my shelter
Rescue me
