

Landscape

DROELOE

I'm grateful for the view that is outside my window now
Don't need something new to know that I'm so

Done with the noise, should have enough
Grain of salt, little fairy dust
Done with the noise, should have enough
Grain of salt, little fairy dust

I'm grateful for the view that is outside my window now
I don't need something new to know that I'm still growing
I'm grateful for the view that is outside my window now
I don't need something new to know that

I just need a house, food, love and a box for my stuff
I'm scared by the noise, now I should have enough
With the itty-
bitty magic, with the feds all stuck in traffic, oh
I just need a house, food, love and a box for my stuff
Done with the noise, should have enough
Grain of salt, little fairy dust

I'm grateful for the view that is outside my window now
Don't need something new to know that I'm so

Done with the noise, should have enough
Grain of salt, little fairy dust
Done with the noise, should have enough
Grain of salt, little fairy dust

Done with the noise, should have enough
Grain of salt, little fairy dust
Done with the noise, should have enough
Grain of salt, little fairy dust

Done with the noise, should have enough
Grain of salt, little fairy dust
Done with the noise, should have enough
Grain of salt

Done with the noise, should have enough
Grain of salt, little fairy dust
Done with the noise, should have enough
Grain of salt, little fairy dust
